### **PROFESSIONAL EXPERIENCE**

#### **Logistics Analyst, Huntington Ingalls Technical Solutions Division (Camber) Jul 14-Present**

Responsible for Marine Corps Installation Command (MCICOM) regional set of CBRNE equipment; tracking, calibration, maintenance, and replacement. Maintained daily purchase requests, purchase orders, vendor shipping/tracking and assisted in the procurement process. Coordinate logistic efforts for problem resolution and efficiency creation between multiple business offices, along with outside entities. Work with stakeholders for planning, development, implementation and management of support concepts and strategies involving more than \$23M in tangible CBRNE equipment and assets.

- Assisted in maintaining 98% Operational Availability for life saving equipment used by USMC responders on a worldwide basis.
- Led program level effort to overhaul National Registry of equipment items and Item Unique Identification (IUID) tagging.
- Provided exceptional performance in a Consolidated Asset Materiel Management Systems designed to provide organizations with improved management and tracking capabilities for critical, deployed assets – transforming data into actionable information.
- Was a key player in platform to support any number of mission objectives, from logistics & training to public safety & emergency response.

#### **Warehouse Manager; Camber Corporation, Abingdon, MD Aug 10- Jul 14**

Responsible for warehousing operations for \$10M inventory of U.S. Army and Marine inventories utilizing the Barcom System. Implemented Shipping & Receiving Criteria Manual. Created weekly shipping log.

- Achieved 100% property accountability and transition of assets to more modern accounting systems.
- Played a key role in the reutilization of assets avoiding substantial costs to the Government.

#### **Sentry Operator; Camber Corporation, Abingdon, MD Nov 06-Aug 10**

CBRN-JOD Sensor Operator/ Analyst. Maintained constant situation awareness of the Pentagon Reservation and National Capital Region CBRN sensor array system and insured critical information was relayed to the Pentagon Police Department Watch Commander. Assessed real world events, current situation and meteorological in order to provide proper hazard information to the incident commander.

Anthony F. Parker Jr.

Page 2

Analyzed available all source information to develop likely strike scenarios within the National Capital Region.

- Created Sentry Operator training manual.
- Hand selected as the Sentry Operator for 2009 Presidential Inauguration and 9/11 Memorial Opening Ceremony.

**Owner/Artist; NU Revolution Entertainment, Baltimore, MD**

**Mar 09-Present**

Manage daily operations of music licensing for TV/Film Networks, songwriting, tour coordination, festival coordination, social media, promotion/marketing, sponsorship outreach, music videos, music retail releases, video directing/editing, distribution, charity event organization, talent acquisitions and payroll/accounting.
