

Rich Isaacman Photography CV

Over the past several years, I've been variously president and VP of the Digital Photography Club of Annapolis for the past 4 years. I'm on the Board of Directors of the Maryland Federation of Art (MFA) and a member of the Annapolis Arts Alliance. My photos have won a number of awards (e.g., an honorable mention in the 2019 Washington Post travel photography contest) and at any given moment I usually have something hanging in a few venues around the area, e.g., BWI airport and the Circle Gallery in downtown Annapolis. I usually appear in about a dozen shows a year around the area. In early 2020 I had my first solo gallery exhibit, a show of 29 of my drone images displayed for two months in the Martino Gallery at Maryland Hall for the Creative Arts.
