ARTIST STATEMENT:

Sarah has been creating art since childhood. She has exhibited work in many different venues and craft shows.

She paints functional art such as hand painted pepper mills, tissue box covers, gift boxes and small canvases.

Her work expanded to include children's hair accessories like painted hairbrushes and headbands.

Skilled in a wide variety of media, Sarah enjoys acrylic paint, pen and ink, colored pencil, and markers. She enjoys all art making, whether painting her products or a new canvas. She also sells greeting cards printed with her original artwork and has two self-published coloring books available.

Art making is Sarah's true passion, and she enjoys being active in the community by exhibiting and selling her work.

PRODUCT DESCRIPTIONS:

My main attraction and basis of my business is the salt and pepper grinders painted as popular lighthouses. Both individual pepper mills and salt and pepper sets are available. These fun conversation starters are a great addition to any kitchen.

Sunflower tissue box covers and gift boxes are painted with acrylic on wood and are sure to brighten up any room.

Hand painted and mixed media small canvases can be easily hung with a tack or stand up on your desk.

“Hair Flair” includes hand painted wooden hairbrushes with 12 different designs from flowers to butterflies to cute animals. I can personalize each brush right away for free. I also make headbands with bright and colorful bows and offer a gift package with one brush and two headbands. Perfect gift for kids!

My greeting cards are printed with a selection of past artwork, 12 different pieces from paint to pastel, realistic to abstract. All cards are blank inside, include an envelope, and are individually packaged. They are available individually or in a 12 pack with each design.

I have two coloring books that I self-published with my original designs. This “Mindful Moments” series includes “Daily Gratitude Journal”, a 28 day practice with abstract patterns to color while answering writing prompts about gratitude. The second, “Mystical Mandalas”, is full of hand drawn mandalas incorporating sacred geometry ready to be colored.

Sarah T Artist offers something for everyone, my various work makes personable gifts for every season!
