

Use the arts to empower young people to understand and participate in democracy.

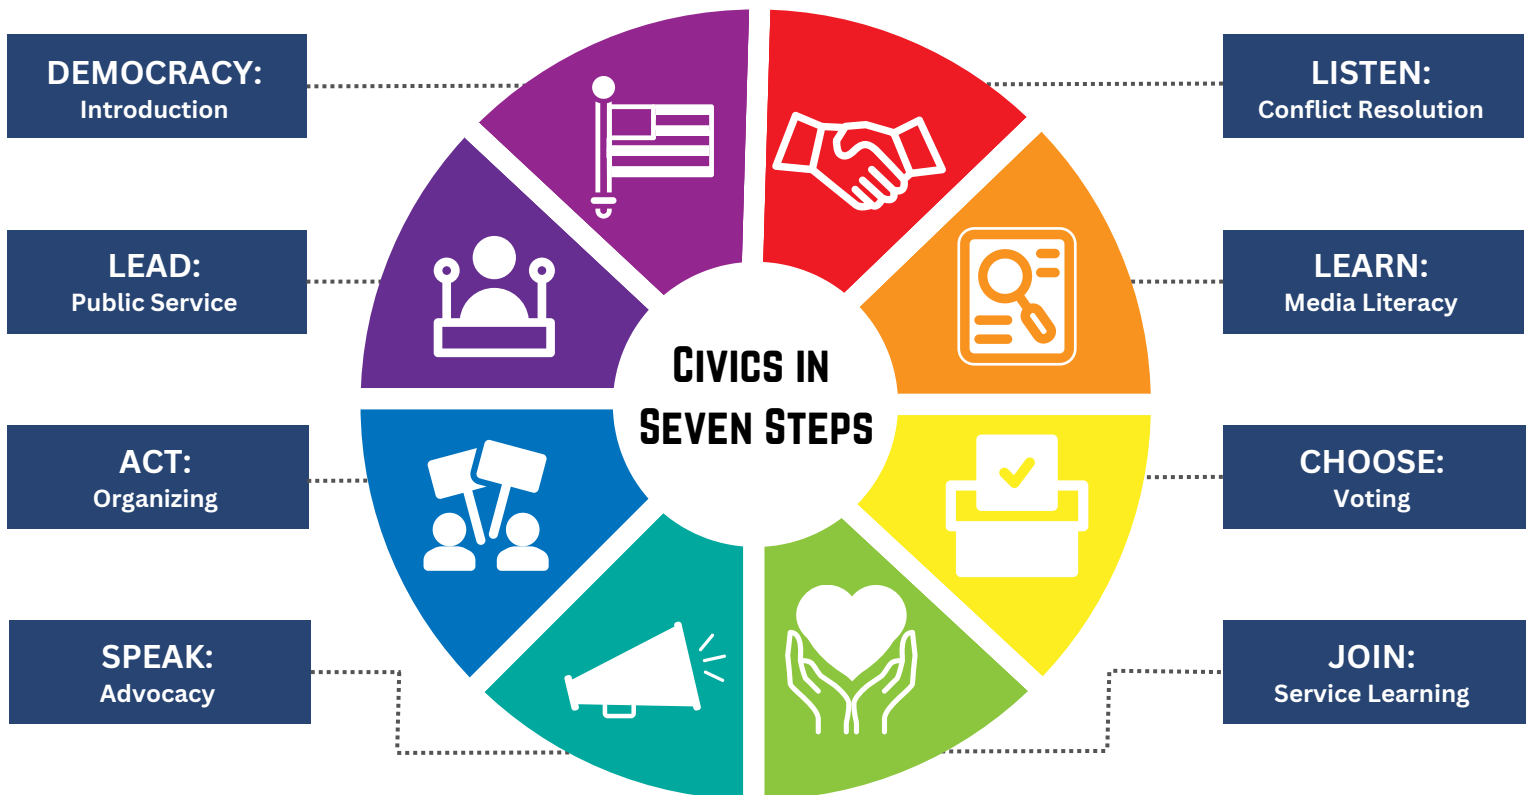

LIFT EVERY VOICE

The Civic Circle meets the increasingly urgent need for civic learning with an innovative, arts-based curriculum that teaches students seven civic skills that we call the steps to democracy. Our lesson plans include slide presentations, student materials, civic songs, poems and arts activities, and primary source materials aligned with state and national Standards of Learning.

TAKE SEVEN STEPS

The Civics in Seven Steps Curriculum focuses on critical civic skills like conflict resolution, media literacy, and voting. Students engage in activities for academic and social and emotional learning, and they acquire the tools they need to become leaders in their communities.

Bring the Civic Circle to your students today!
