Dear Scott and the band,

The performance given at the Mother's Day Family Festival earlier this month was really lovely. I had a great time listening to your music, as did my colleagues and the children and families in attendance. The repertoire selected for the event was just right, and I look forward to the day when I can bring you back to the museum for another event!

I really appreciate how organized and put together the Knuckle Dusters were from start to finish. Trust me – this is a rare find in my industry these days.

Thank you again for such an entertaining and pleasant concert; it was such a great addition to the day.

All the best,

Katie Crooks
